

## CONTRACT BREWING AND BEVERAGE PACKAGING SERVICES TO HELP GROW YOUR BRANDS

### AN EXPERIENCED CO-PACK PARTNER

At Full Sail Brewing, we have over 34 years of brewing and beverage packing experience and nearly two decades of experience working with local, regional, and multinational brands to help bring the finest quality beverage brands to market.

### INFRASTRUCTURE AND EQUIPMENT TO MEET YOUR NEEDS

Full Sail's brewery is equipped to bring your brand's vision to life quickly and efficiently. We operate a 200 BBL brewhouse with Meura Mash Filter and Alpha Laval Centrifuge. The packaging hall is equipped with high-speed Krones canning and bottling lines capable of filling most common vessel sizes and packaging into myriad configurations. Contract customers are able to leverage Full Sail's established network of freight and warehouse operators as well as component sourcing and supply chain.

### PEOPLE POWER

Knowledge and know how run deep at Full Sail. We have a robust, state of the art lab and QA department to ensure that every drop of liquid leaving our facility is of the highest quality. Additionally, brewmaster Greg Doss has spearheaded multiple new product developments and launches. It's no wonder Full Sail's brands have won more than 200 gold medals through the years!
